Profile Summary

Computer Science student seeking internship/entry-level position. Passionate about coding and delivering quality work. Skilled in React, Tailwind CSS, and TypeScript. Eager to contribute technical skills and grow professionally in an innovative team.

Professional Skills

- **LANGUAGE**
JavaScript (ES6+),
 - **Libraries/Frameworks**
React
Tailwind CSS
TypeScript
- **Version Control**
Git
GitHub
 - **Development Tools**
Vite
Webpack
VS Code
- **Soft Skills**
Critical Thinking
Collaboration
Communication
Adaptability
Time Management

Education

Bachelor of Science in Computer Science May 2023 - Present
Ghana Communication Technology University

Projects

A Budget App

A fully responsive budget tracker that allows users to add and track their expenses. Developed using React and Tailwind CSS. Integrated local storage to persist user data across sessions.
[Live Demo](#) | [GitHub](#)

A Hangman Game

Built an interactive hangman game using React and TypeScript. Implemented state management for game logic and ensured full responsiveness for mobile and desktop devices.
[Live Demo](#) | [GitHub](#)

Gemini Clone

A clone of Google's Gemini app. Developed the front end with React, implementing fully responsive design using Tailwind CSS.
[Live Demo](#) | [GitHub](#)

Open-Source Contributions

Keys Rig Project

Keys Rig is a platform designed to assist keyboard players in building their live performance rigs with ease.
